

Report: Show total revenue per month

Here's a summary of your monthly revenue findings:

- * Throughout 2023, our monthly revenue was quite consistent, generally ranging between **£360,000 and £470,000**.
- * We saw our highest revenue months in **January, April, and October 2023**, each bringing in over **£460,000**.
- * The lowest revenue months in 2023 were **February, July, and September**, with earnings around **£360,000 - £370,000**.
- * Revenue for **January 2024** is currently much lower, at just over **£19,000**. This is significantly below any month in 2023 and likely indicates that the month is not yet complete or the data capture is still in progress.
