

Report: Show total revenue per month

Here are the findings regarding our monthly revenue:

- * ****Strong Start to 2023:**** We began 2023 with our highest monthly revenue, achieving over \$476,000 in January, which set a strong pace for the year.
- * ****Consistent Performance with Mid-Year Fluctuations:**** Throughout 2023, our monthly revenue generally stayed strong, typically ranging between \$368,000 and \$476,000. We saw a slight dip in September, which was our lowest month, but revenue rebounded significantly towards the end of the year.
- * ****Year-End Momentum:**** Sales picked up notably in the final quarter of 2023, with October and November performing very well, each bringing in over \$460,000, indicating strong activity as the year concluded.
- * ****Early 2024 Data:**** The revenue figure for January 2024, currently around \$19,000, is significantly lower than previous months. This suggests that the data for January 2024 is likely incomplete or still being updated, and it's too early to compare it to full months from 2023.
