

# Report: Show total revenue per month

Here are the findings from your request:

- \* The analysis for total revenue per month ran successfully, but it didn't produce any numbers or figures for us to review.
- \* This means we currently don't have a visible monthly breakdown of our sales performance.
- \* There could be a few reasons for this, such as no sales transactions being recorded in our system for the specific time period we looked at, or a small adjustment might be needed in how we're asking the system to pull the information.
- \* Without these monthly revenue figures, we can't currently observe trends, identify busy periods, or understand how our sales are progressing month-over-month. To get these crucial insights, we'll refine the request and re-run the analysis to make sure we capture all available data.
