Report: Show total revenue per month

Here are the findings from your request:

*   We attempted to calculate the total revenue for each month as you requested.

*   However, no revenue figures were returned or displayed after running the analysis.

*   This suggests that based on our current data, there might not be any recorded revenue for any month, or the relevant sales information is currently missing.

*   I can investigate further to understand why no data appeared, perhaps by checking the source data or the time period being analyzed.
