Report: Show total revenue per month

Here are the findings from your request:

*   We attempted to calculate the total revenue for each month.
*   However, the analysis didn't return any figures or data points.
*   This indicates that there might not be any revenue transactions recorded in the system for the period we examined.
*   We should verify if revenue data is being captured as expected or if we need to adjust the date range for the analysis.
